Sie vermissen das Licht und Nostalgie-Design einer Glühlampe mit Ihrem Wolframdraht?

Bestechend durch ihre klassische Form sowie der LED Strings in Glühwendeloptik sind die Filament LEDs das perfekte Ersatz für die traditionelle Glühlampe. Darüber hinaus überzeugen sie durch die hohe Lichtausbeute und lange Lebensdauer **/25.000h/**.

Die Filament LED Serie hat es vollbracht das futuristische Aussehen der heutzutage erhältlichen LED-Retrofits mit ihren Kühlkörpern hinter sich zu lassen und auf gewohntes traditionelles Design zu setzen.

Die Filaments sind, ähnlich wie die Glühlampen, in verschiedenen Wattagen und Bauformen mit bis zu 800 Lumen erhältlich.

LED-String aus Saphir Glas

Glaskolben

FilamentLED Edisonlampe

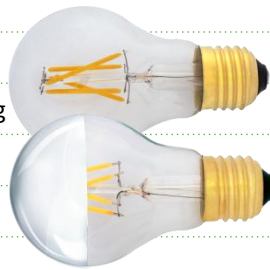

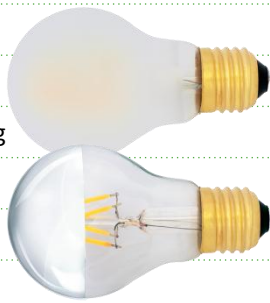

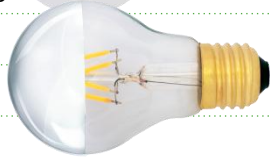

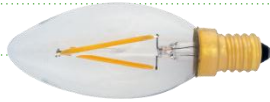

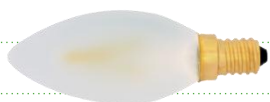

ST64 Filament LED | E27 Sockel | 6W,
4W | Ausführung in klar und Gold |
2.400K, 2.200K | 400lm, 600lm

Gefertigt auf einer
Glühlampenmaschine

Gasfüllung für optimale
Wärmeableitung vom String
